EDUCATION

Government College University, Lahore: *Intermediate in Computer Science (ICS)* *2021 - 2023*

University of Education: *Bachelor of Computer Science* *2023 - 2027*
Relevant Coursework: Data Structures & Algorithms, OOP in C++, Database, Networking

EXPERIENCE

Web-Application (Projects)

- Built "Edusity," a high-performance, interactive education web app with real-time features and a seamless learning experience, deployed on Vercel..(REACT)
- Created HomeHub, a modern MERN stack web application with robust frontend-backend integration and real-time functionality, deployed globally via Vercel.
- Developed a full-stack e-commerce web application using the MERN stack, enabling users to browse products, manage carts, and place orders. Implemented secure authentication, RESTful APIs, and responsive UI for a seamless user experience.

PROJECTS LINKS

Edusity React Web App: Edusity merges interactive courses, instant feedback, and analytics-driven progress tracking to deliver a next-level educational platform for students.(REACT)
Live Demo | GitHub

Myntra - Web App(only frontend): Myntra- muaaz combines sleek UI, dynamic product browsing, and access to curated products online.(REACT)
Live Demo | GitHub

Real Estate - Web App: Developed Home Hub, a modern real-estate web application using the MERN stack and Tailwind CSS, featuring property listings, user authentication, and responsive UI design.
Live Demo | GitHub

Print Forge Web Application: Developed a modern and responsive web application (design) using Next.js, TypeScript, and Tailwind CSS. Designed reusable components and leveraged static data rendering to ensure high performance and seamless user experience.
Live Demo | GitHub

MUAAZ's MART – Full Stack E-Commerce Platform (MERN Stack)

- Developed a scalable e-commerce application using **MongoDB, Express.js, React.js, and Node.js**.
- Built RESTful APIs for handling products, users, and order management.
- Implemented user authentication and authorization using JWT.
- Designed a responsive frontend with React for dynamic product browsing and cart functionality.
- Integrated backend with MongoDB for efficient data storage and retrieval.

Live Demo | GitHub

SKILLS

- **Frontend:** HTML, CSS, JavaScript, React.js ,Nextjs

- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **Tools:** Git, GitHub, Postman, VS Code
- **Concepts:** REST APIs, Authentication

Achievements

- Solved 150+ problems on LeetCode (Profile)
- Successfully built and deployed multiple web applications
- Learned MERN stack through self-learning and hands-on projects

Certificates

- React Certificate from Knowledge Gate
- Tailwind CSS Certificate from Scrimba
- Nextjs Certificate from Scrimba
- Git & Github Certificate from Scrimba
