WORK EXPERIENCE

Full Stack Engineer

Jan 2024 - Present

Independent Developer (Personal Projects)

Remote

- Developed and deployed robust full-stack web applications utilizing the MERN stack (MongoDB, Express.js, React, Node.js) as personal portfolio projects.
- Built scalable RESTful APIs, integrated secure JWT authentication, and optimized database queries to enhance overall application performance.
- Designed and implemented responsive and intuitive user interfaces leveraging React.js and Tailwind CSS.

Software Engineering Fellow

Sep 2025 - Present

[Dev Weekends](#) Fellowship

Remote

- Engaged in an intensive software engineering mentorship program, collaborating on full-stack development practices, code reviews, and industry-standard workflows.

PROJECTS

SkillForge

[GitHub](#)

Next.js, TypeScript, MongoDB, Redis, Tailwind CSS, Node.js, Express, JWT

- Currently developing a high-performance Learning Management System (LMS) with real-time features and a seamless educational experience (In progress).
- Implemented robust full user authentication utilizing JWT with secure session refresh mechanisms.
- Designing an intuitive dashboard for content management and progress tracking to elevate user engagement.

MUA AZ'S MART (E-Shop)

[Live Demo](#) | [GitHub](#)

MERN Stack, Redux Toolkit, Nodemailer, Tailwind CSS

- Developed a scalable multi-vendor e-commerce platform using MongoDB, Express.js, React.js, and Node.js.
- Integrated Redux Toolkit for efficient global state management of user sessions, product filters, and shopping cart functionalities.
- Built an administrative and vendor dashboard with role-based access control (RBAC) for inventory and order management.
- Implemented secure user authentication with JWT and integrated Nodemailer for automated order and registration email notifications.

HomeHub

[GitHub](#)

MERN Stack, Firebase, Redux Toolkit, Tailwind CSS

- Developed a modern real estate web application allowing users to easily browse, list, and manage properties.
- Integrated Firebase for property image storage and utilized Redux Toolkit for application state management.
- Implemented essential search functionality featuring property filtering and sorting options.

EDUCATION

University of Education

2023 - 2027

Bachelor of Computer Science

Lahore, Pakistan

- Relevant Coursework: Data Structures & Algorithms, OOP in C++, Database, Networking

Government College University

2021 - 2023

Intermediate in Computer Science (ICS)

Lahore, Pakistan

SKILLS & ACHIEVEMENTS

Languages: JavaScript (ES6+), TypeScript, C, C++, SQL

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, Bootstrap, HTML5, CSS3

Backend & Databases: Node.js, Express.js, MongoDB, Redis, REST APIs

Tools: Git, GitHub, Postman, VS Code, XAMPP, Vercel

Achievements: Solved 150+ LeetCode problems; Certifications in MERN Stack, React, SQL, and Tailwind CSS.
